Storm Water Inlet Marker Donation Program

For only **\$5.00** you can help protect our **streams and rivers**

Stormwater runoff pollution is one of the greatest threats to our region's waterways. This occurs when rain or melted snow flows over impervious ("watertight") surfaces, such as driveways, sidewalks, and streets. In a built-up town like ours, this runoff picks up oils, litter, chemicals, and other pollutants on its way into storm drains. It is then discharged into the waterways we use for swimming, fishing, drinking water and more.

Storm Drain Markers are adhered to pavements and curbs adjacent to storm drains (sewer inlets) and serve as a visual reminder that only rain should go down the storm drain and discourages dumping. The metal markers shown are being purchased by Doylestown's EAC and we are seeking donations to implement the program through-out the Borough. They will be installed by the Borough Public Works Department.

Please consider making a simple **\$5.00** tax-deductable donation (or more) to purchase storm water markers. Your name and names of other people who donated will be listed on an EAC **Honor Role** published in a future addition of the Borough Bulletin.

Donation Form

Name: _____

Address: _____

Number of markers to be purchased/donated: _____

Amount Enclosed @ \$5.00 each: _____ (*Cash or check payable to Doylestown Borough*)

Is it ok to publish your name on the EAC Honor Role? Yes [] No Thanks []
